

World Book's Illustrated Atlas

It takes students on a voyage of discovery around the world. Through colourful maps and pictures, students find out about the world's lands, plants, animals and people.

Features:

- ✎ Over 100 full-colour and easy-to-read maps that introduce young students to simple map-reading skills and the basic principles of geography.
- ✎ More than 400 colour illustrations packed with interesting details.
- ✎ 250 photographs of the people and places that make up our world.
- ✎ Flags of the world's nations illustrated in colour.
- ✎ Comprehensive and simple-to-use index.
- ✎ Cartoon characters that serve as tour guides to the atlas and entertain children as well as teach them.

Reviews:

"...offers not only a lively and colourful introduction to our world but also excellent lessons on map reading." – ***American Reference Books Annual 2005***
